## a steamy food affair!

Stainless steel pressure cookers created from 18/8 food-grade steel with a clean finish and robust grip, the Roxx Secura line can prove to be your ideal cooking partner.

Due to a uniformly thick layer of aluminium placed between two layers of stainless steel, tri-ply stainless steel cookware ensures even heat distribution and increases fuel efficiency. When food is hot, holding it is simple. Tri-ply stainless steel cookware provides charm, convenience, and healthy cooking without the drawbacks of hot spots & uneven heat experience with regular stainless steel cookware, thanks to the durable and long-lasting food-grade stainless steel.

Tri-ply stainless steel cookware with three layers - For modern appearance and durability, the top layer is made of high-performance 18Cr/8Ni stainless steel. Cookware made of this material is non-toxic, stain-free, and non-stick. The cookware's 400 series magnetic steel outer layer makes it easier for it to operate on gas.
